Note: Reply from John Tobin (umozamusicproject@gmail.com) on 17. 6.22 to my email sent 24. 5.22 regarding The Umoza Project – Home: Hi Marcel, Firstly, sorry for the delay replying, we’ve been busy working through issues with our webstore partner to get pre-orders for the limited run vinyl finally open. We are now live! The details are below, with links to the web store(s). The deluxe CD (only 1,000 worldwide) is distributed by Universal and is available to order via Amazon and most record stores. Hopefully you’ll be able to order it online easily enough. And here’s the full news release with links for the vinyl pre-order: You can now pre-order our special vinyl releases featuring Paul McCartney playing his iconic Hofner bass - the web stores are open for business! US Store: <https://umoza.8merch.us> U.K./European store: <https://umoza.8merch.com>. We are releasing a very limited edition run of just 2,500 7” and 10” vinyl records, each featuring exclusive mixes and new versions of our lead single - only available on these discs! And we’ve got some VERY special downloads only available to fans who pre-order... If you buy either record you’ll receive a download code for a web exclusive Club Remix of HOME by The Doll’s House. We absolutely love this and know you will too! But there’s more... if you order both formats in a bundle, in addition to the Club Remix you’ll also receive a download of the 7 minute Hog Hill Rough Mix, prepared on the day that Paul recorded his bass part. This raw version features different vocals and percussion plus Paul’s completely untouched end to end performance - an incredible insight into Paul’s instinctive musicality in one live end to end take! The Hog Hill Mix will never be available anywhere else! The 7” features a vinyl mix of the Radio Edit paired with a rocking instrumental version of the same cut. Hear Paul rocking out in this punchy version! The 10” features a vinyl mix of the extended vocal version, different to the album, paired with a vinyl mix of the full length instrumental that’s become a global hit. And as a special extra, the 10” also features The Umoza Music Project’s version of Long Tailed Winter Bird. Paul recorded his bass for HOME during sessions for the #1 album McCartney III, and we recorded our own version of the opening track for the #12daysofpaul release campaign (check it out on YouTube!). We’ve since reworked and extended the track and as a special extra this 10” includes an exclusive new version with an additional rap by lead singer Max Jere – specially approved by MPL for this release. This 10” is the only way to get hold of this rare track! Oh and we’ve also got some rather lovely t-shirts available too, in a variety of colours and featuring our iconic Afro-music logo. Pre-orders are now open at our European and US stores, with shipping as soon as the records are pressed - by September or sooner. But you’ll get the downloads straight away and all proceeds will go to the Malawian musicians, where it’ll make a big impact on many lives. Umoza! Thanks again John Producer, The Umoza Music Project
